

Pandemic Aid Request Form - English

Dear readers Due to time constraints, I could not have this page translated into your language. "[Google Translate](#)" has done me this favor. I very much hope that you can still understand my lines.

As an AHV retiree, I too have as few external contacts as possible during the pandemic. Therefore, I do not yet know exactly what information the authorities, along with address and activity, etc. must still have. This means that I need some information and forms from some of you who can express yourself in German in addition to your mother tongue, either by telephone or in writing - if possible from all language areas. Official correspondence such as acceptances and rejections is also welcome. As the initiator of this initiative, I guarantee you 100% discretion. You can also black out completed forms.

It is my goal to design a printable online form on which you can calmly enter the information necessary for the help. I will then produce and number various templates of explanations for mixed loss events - as a kind of "case type", so that you do not have to "write novels".

And then it works like this: You submit the completed form to SPC. As soon as it arrives, it runs through a program that automatically initiates all necessary steps and sends corresponding confirmations back to you. All traffic between SPC and you goes through mail. If e.g. the unemployment insurance ALV has to pay, you will get your money calculated exactly to the day at the end of the month and then again and again monthly until the day of the end of the officially decreed disability etc. Expenses to be reimbursed retrospectively are processed separately.

Everything is still new and still needs some study. If necessary, I will also consult you. I also send out newsletters to keep you up to date.

Thanks for your help

Werner Bachmann - [initiator](#)
